"Beeple described the artwork as "the first portrait of a human born in the metaverse." It is the first major work made by the artist that has both a sculptural and NFT component. After the sale, Human One was exhibited at the Castello di Rivoli Museum of Contemporary Art in April 2022. It was the artist's debut museum exhibition. Then, the work was shown at the M+ Museum, marking the work's Asian premiere and the artist's first solo show in Asia. The Tree of Knowledge In 2024, Beeple unveiled his new generative sculpture "The Tree of Knowledge" at Italian Tech Week. The sculpture features four video screens forming a rectangular pillar, displaying an endless video of a tree intertwined with industrial elements."

"In May 2020, the Joint Working Group on interVASP Messaging Standards published "IVMS 101", a universal common language for communication of required originator and beneficiary information between VASPs. The FATF and financial regulators were informed as the data model was developed. In June 2020, FATF updated its guidance to include the "Travel Rule" for cryptocurrencies, a measure which mandates that VASPs obtain, hold, and exchange information about the originators and beneficiaries of virtual asset transfers. Subsequent standardized protocol specifications recommended using JSON for relaying data between VASPs and identity services. As of December 2020, the IVMS 101 data model has yet to be finalized and ratified by the three global standard setting bodies that created it. The European Commission published a digital finance strategy in September 2020."

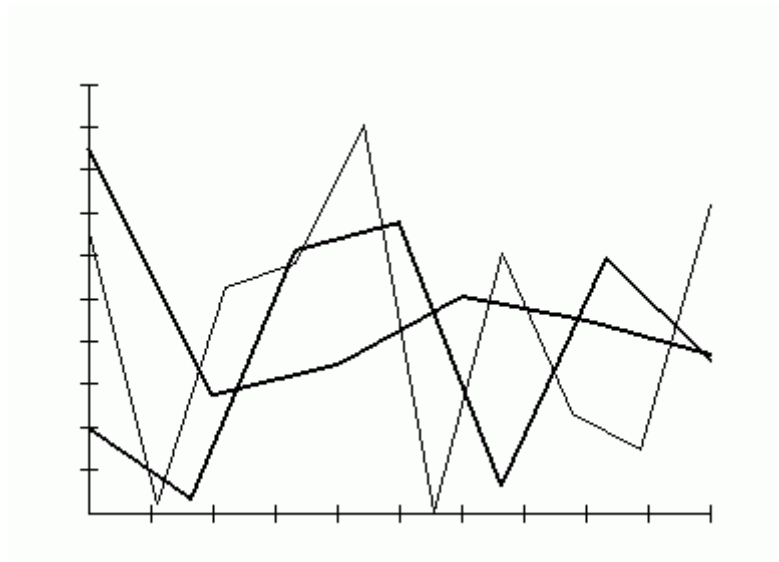

Cryptocurrency Investment Fundamentals for Beginners

What Is the Best Way to Start Investing in Cryptocurrency?

In a universe where volatility dominates and consensus influences value, crypto investors must think long-term in cycles, not in seconds. Layer 1 networks, liquidity pools, and token vesting plans are fundamental — serving as your guide through digital confusion. Not merely flipping altcoins or chasing gains, this is about a portfolio rooted in narrative and the power of network effects. Delve into the success of proof-of-stake, the allure of ETH staking profits, and the presence of rug pulls hiding in plain sight. Your asymmetric bet on the future of finance involves stablecoins, governance tokens, and wrapped assets, each playing a part. Shift focus

from charts to conviction investing, with horizons that surpass the next market spike. Navigate momentum safely, minimizing losses from gas fees and FUD. The Web3 realm favors patience, informed research, and risk tolerance beyond luck.

Cold wallets serve as repositories of conviction, and each rebalancing act is philosophical. Treat this as your guide to digital sovereignty by managing capital wisely.

Fundamental Crypto Metrics Every Investor Should Know

How Can I Participate Safely in Initial Coin Offerings (ICOs)?

In crypto investing, knowledge acts as your primary asset, leading you safely through market ups and downs. Your path is shaped by decisions ranging from learning token utility to perfecting portfolio allocation. Dive into strategies like HODLing, staking, and yield farming to unlock sustainable growth. Approach impermanent loss, rug pulls, and gas fees risks with sharp, informed awareness. Gain expertise in interpreting blockchain data, candlestick signals, and macro trends that drive price action. Harness decentralized finance features—from governance tokens to cross-chain bridges—to grow your toolkit. This environment calls for patience, self-control, and attention to long-term value instead of short-lived hype.

Successful capital allocation hinges on striking the right balance between innovation and prudence. Create durability by allocating across assets, multiple layers, and diverse protocols. More than investing, this is about forging a path to financial sovereignty.

How Does Market Sentiment Affect Cryptocurrency Prices?

The digital frontier is open — every mined block marks progress toward a new financial era. Whether picking up your first satoshi or growing a varied altcoin collection, success favors fast learners and long-term thinkers. In this space, whitepapers chart treasure, while every on-chain transaction unfolds conviction. Unlocking the secrets of ecosystems like Ethereum, Solana, Layer 2 rollups, and cross-chain bridges is your goal.

With DCA, portfolio management, and long-term focus, you develop discipline along with wealth. Gas fees, token burns, and governance votes are prompts to participate, not simply speculate. Gaining insight into market cycles, trading psychology, and the essence of “diamond hands” is yours. Avoiding FOMO and perceiving FUD becomes instinctive as you develop your skills. More than an asset class, crypto embodies a mindset, a movement, and a glimpse into the future. Start where you are, stack what you can, and let compound knowledge be your greatest yield.

"One of the last times I saw Futch was before the Floyd Mayweather Jr.–Diego Corrales junior lightweight title bout in Vegas. Futch was talking about how much he admired Mayweather's style, how Mayweather was such a beautiful boxer, able to slip along the ropes and avoid punches. Corrales said he was going to neutralize Mayweather's hand speed by hitting Mayweather on the arms. "I guess he thinks he's going to stand there and let him hit him on the arms all night," said Futch, who correctly predicted that Mayweather would completely

dismantle Corrales in a defensive masterpiece. Futch had a way of cutting to the heart of a matter. I don't know anyone in boxing who won't miss him. I don't know anyone in boxing that can take his place."

Dollar-Cost Averaging Strategies for Crypto HODLers

Which Strategy Is Better: Long-Term or Short-Term Crypto Investing?

Beyond fiat and fear lies a new paradigm, where smart contracts replace trust and protocols shape power.

Investing here involves interpreting volatility as a signal, not noise — perceiving red candles as opportunities rather than losses. Each Satoshi spent, gas fee charged, and portfolio rebalance performed expresses confidence in code rather than institutions.

The terrain is broken into pieces — memecoins pump, stablecoins lose peg, DAOs vote quietly. Wallets go beyond tools — they serve as your passport, ledger, and vault. Your staking, bridging, and swapping represent more than capital moves — they're alignments with decentralization, sovereignty, and escape velocity aspirations. Bypassing hype cycles is wise, but understanding them is vital — they beat as liquidity's heart. Learn to decode the tokenomics of whitepapers and grasp the social consensus underpinning charts.

This isn't market timing; it's about insight into the market's future state. A tokenized future awaits — your task is to pick wisely which chains to rely on.

"The series was renewed for a third season with Adam Briggs joining the team and began airing from 1 February 2017. The fourth season premiered on 2 May 2018 at the later timeslot of 9:05pm to make room for the season return of Gruen at 8:30pm, and was signed on for 20 episodes. Flanagan announced her departure from The Weekly With Charlie Pickering during the final episode of season four, but returned for The Yearly with Charlie Pickering special in December 2018. In 2019, the series was renewed for a fifth season with Judith Lucy announced as a new addition to the cast as a "wellness expert". The show was pre-recorded in front of an audience in ABC's Ripponlea studio on the same day of its airing from 2015 to 2017. In 2018, the fourth season episodes were pre-recorded in front of an audience at the ABC Southbank Centre studios."
